After further consideration, the terminal disclaimer filed on 01/22/2008, disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of US 6697421 B1 has been reviewed and is accepted. The terminal disclaimer has been recorded.

Response to Arguments

Regarding claim rejections under 35 USC 103:

Applicant's arguments, see Amendment/Req. Reconsideration-After Non-Final Reject, filed 06/22/2009, with respect to claims 23 and 32 have been fully considered and are persuasive. The rejections of claims 23 and 32 have been withdrawn.

Allowable Subject Matter

Claims 23-35 and 37-40 (renumbered 1-17) are allowed.

The following is an examiner's statement of reasons for allowance: claims 23-35 and 37-40 (renumbered 1-17) are allowed because a comprehensive search of prior art failed to teach, either alone or in combination, a wireless modem receiving a short .message service message at a RF transceiver of a wireless modem from a wireless network, wherein the wireless modem comprises the RF transceiver, a processor coupled with the RF transceiver, a non-volatile memory coupled with the processor, a volatile memory coupled with the processor, and a wireless protocol stack means, examining the short message service message for modem management information with the wireless .protocol stack means and the processor, and processing the short

Art Unit: 2611

message service message at the wireless modem with the wireless protocol stack means and the processor when the short message service message includes the modem management information, wherein said processing the short message service message comprises the wireless modem performing at least one of remote initialization and remote control of equipment that is coupled with the wireless modem, wherein said processing the short message service message at the wireless modem comprises locating program code in the short message service message that is to execute on the wireless modem, and wherein the equipment is selected from a utility meter, a meter concentration point, a utility meter control system, a substation monitor, telemetry equipment, a vending machine, and a computer, as the applicant has claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
